English Policy

Rationale
English is a domain of the Victorian Curriculum. Active and effective participation in Australian society depends on the ability to speak, listen, read, view and write with confidence, understanding, purpose and enjoyment.

Aims
To ensure that all students:
1. learn to listen to, read, view, speak, write, create and reflect on increasingly complex and sophisticated spoken, written and multimodal texts across a growing range of contexts with accuracy, fluency and purpose
2. appreciate, enjoy and use the English language in all its variations and develop a sense of its richness and power to evoke feelings, convey information, form ideas, facilitate interaction with others, entertain, persuade and argue
3. understand how Standard Australian English works in its spoken and written forms and in combination with non-linguistic forms of communication to create meaning
4. develop interest and skills in inquiring into the aesthetic aspects of texts, and develop an informed appreciation of literature.

Implementation:
5. Teams of teachers will implement a sequential and organized Prep to Year 9 program based upon Victorian Curriculum.
6. Teachers work in teams to develop a sequential English program based on the identified needs of each student.
7. The English Developmental Continuum F-10 will be integrated by teams of teachers into the program to support students to develop increasingly more sophisticated English understanding.
8. Student’s individual abilities will be monitored using a range of formal and informal assessment strategies (for, as and of learning). These will be used to measure student progress and identify future learning needs. The Featherbrook College whole school assessment schedule outlines the formal assessment tools to be used.
9. Learning opportunities will be structured to cater for the identified needs of each student.
10. Students will participate in the English program on a daily basis, for a minimum of 10 hours per week (primary years). Variance may occur due to camps and excursions.
11. Student progress in all dimensions of English will be demonstrated in portfolios and Student Led Conferences; and reported in half year and end of year academic reports. Student cohort achievement will be reported in the school’s annual report.
12. Specialist teachers will be mindful in incorporating English concepts into their programs whenever possible, strengthening the classroom based English program.
13. Parents/carers are actively encouraged to participate in English programs across the school. Classroom helpers are required to hold a current Working With Children Check and are required to adhere to confidential expectations of the classroom.
14. Students in Prep – Year 4 are encouraged to participate in daily reading to, with, and by parents/carers or older siblings outside of school. Students in Year 5 and 6 are encouraged to
participate in daily independent reading outside of school. Reading a variety of different texts is encouraged e.g. newspapers, online material, instructions, signs, dependent on the developmental stage of students and personal interest.

15. A coordinator will be allocated the responsibility of coordinating and resourcing the English program across the school, in partnership with the English Committee. This will include developing the targeted English based professional learning required for teaching staff.

16. Provision of resources will be targeted to meet the learning needs of students at different stages of their development. A range of learning and teaching resources are available to assist teachers in supporting students from language backgrounds other than English.

17. Student learning progression and outcomes will be supported by teachers using of evidence – based instructional practice, where data collection (informed by the whole school assessment schedule) will be undertaken and data analysed to inform further targeted programming provision, resource requirements and future goal setting.

Resources:
- Victorian Curriculum- English: introduction to the domain, relationships to other domains, standards and learning content descriptors for English
  http://vcaa.vic.edu.au

- The English Developmental Continuum F-10 provides evidence based indicators of progress, linked to teaching strategies, aligned to the progression points and the achievement standards for the English domain.

- The English as an Additional Language (EAL) Developmental Continuum P–10 provides evidence- based indicators of progress, linked to practical teaching strategies to support the assessment of EAL students and the development of effective learning programs for the many students in Victorian schools who are learning English as an additional language.

Evaluation:
This policy will be reviewed as part of the school’s three-year review cycle.
Review Date: 2017
